The following is a guide to completing the Russian visa application. The application is completed online, then printed, signed and included with the rest of applicant's documents. **There can be no errors or manual corrections once printed. Any errors may result in rejection.**

The online visa application is broken up into several different pages, each with a few questions. The application has a "session timeout" meaning that if a page is not completed within a specified time (generally about 10 minutes) you will be logged out and may need to begin again.

This guide can be printed and used as a worksheet to gather answers prior to completing the online application so when the time comes to fill out the actual application you will not be delayed looking for answers.

On the next few pages, you will be instructed on creating an application password and application number. Both of these need to be submitted to PVSglobal along with the application. Please write this information below and include this sheet with the completed application:

**Application Password:** \_\_\_\_\_

**Application ID:** \_\_\_\_\_

The Russian government online application form is **NOT** currently compatible with a Macintosh – and works best with updated versions of Internet Explorer and Mozilla Firefox. You will need the most up-to-date version of Adobe Acrobat Reader, passport, itinerary and invitation information and a printer.

Select UNITED STATES and ENGLISH as your country where applicant will be applying and language.

After reading directions click on the box next to “I have read this information” in red at the bottom of the blue box then click on “Complete New Application Form” button.
